

Charis Childbirth Services

The mission of Charis Childbirth Services is to be an international organization of Christian childbirth professionals and ministers who, through faith, skill, and education, prepare and practically serve families; facilitating healthy, fulfilling, God-designed birth experiences.

Our Vision

Charis Childbirth Services educates, trains, and certifies Christian childbirth educators and doulas; educates aspiring midwives, preparing them for the examination required for their certification; and provides ongoing support and accountability for all its members.

Charis childbirth educators equip childbearing families with an increased knowledge and understanding of the Word of God as it relates to their season of life and with complete and accurate information, which increases their faith in God, enables them to make informed decisions concerning their pregnancies and births, and prepares them for their upcoming labor and delivery and the care of their newborn.

Charis doulas provide gentle care for laboring women, whether the birth place of choice is home or hospital. They bring physical and emotional comfort and support, while preserving the intimacy and bonding between the woman and her family, helping to facilitate a positive childbirth experience.

Charis midwives serve childbearing families with skill and tenderness through prenatal, labor & delivery, and postpartum care.

Charis Childbirth Services reaches out locally and worldwide under the covering of New Life Christian Fellowship of Virginia Beach. It partners with local churches across the United States and around the world to minister to women and girls in a crisis pregnancy by providing care specific to their unique needs, treating them with the utmost respect and love. It ministers worldwide through the training of missionaries and foreign nationals to serve childbearing families in ways that are relevant to the individual cultures, providing a means for bringing the Gospel of Jesus Christ to all nations.
